### AMERICAN JOCKEYS

Show the Englishmen a Few Tricks in Racing.

By Associated Press.

London, Oct. 17.—The second day's racing at the Gatewick Outdoor meeting today was not calculated to lessen the British irritation at the supremacy of American jockeys. The English turf. The first four races on today's program were won by riders imported from the United States, and one of the winning horses is the property of an American. The Gatewick mid-weight handicap was won by C. S.

Newton's Amer, with Danny Maher in the saddle. This race was for \$5000, distance one mile and a half. The Mountain Plate of 100 sovereigns resulted in a victory for John Smith's Mountain Buck, ridden by Rigby. This event was for three-year-old colts at a mile. Rigby also finished first on Duke Kings Evidence in the Cawter selling handicap, 200 sovereigns, distance seven furlongs. Mole Plate was won by Drake's Irish Lass, with Lester Reff in the middle. This event was for 100 sovereigns, for two year olds, distance five furlongs.

The Episcopal Social will be held Thursday evening at 5:30 in the church parlors. Wed, Oct 17-20.

ONE POINT IN THE OHIO CAMPAIGN.

### JOHN D. CRIMMINS

OF NEW YORK CITY REFUSES TO SUPPORT MR. BRYAN.

Is a Very Prominent Irish-American Lawyer of the Metropolis—Other Democrats Declare That They Will Follow Mr. Crimmins' Lead.

Among the constant and notable accessions from Bryanism to McKinley's support, New York city had two conspicuous cases on the same day lately. One was that of John D. Crimmins, among the most prominent Irish-Americans, a very large employer of labor in the important public contracts that he has executed, and a man who has particularly the good will of his workmen. He warns wage-earners of the peril in Bryan's election, and feels called upon to say that, Democrat though he is now, and always has been, yet it seems to him that even as a Democrat, he is compelled to support McKinley, since there is today, in his view, no Democratic party. Says he: "Upon the one great issue to be decided at the polls in November, the foreign-born voters can vote but one way as I see the situation. They must vote to protect their own interests by the continuance in our country of abundant employment at good wages, paid in a currency as good all over the world as it is in the markets of New York."

Mr. Crimmins' public statement attracted great attention among the labor organizations, and was read at the meeting of the United Building Trades Council of New York city. Thomas H. McCracken, who has been the business agent for the Progressive Carpenters' Union and the New York City Carpenters' Union for nearly 10 years, said:

"Bryan will not get my vote this year. He got it in 1896, but he won't in 1900. Why? Well, because he is not consistent, that's all."

Mr. McCracken said that he was not the only one who had changed about, and again, he knew others who even now did not "know where they were at."

William A. Perrine, representative of the Iron Molders' conference board, is another labor man who will vote for McKinley and Roosevelt this year, who in 1896 was a supporter of Bryan and the Chicago platform.

"I can't see how McKinley can be beaten," said Mr. Perrine.

### SOME TRADE FIGURES.

Enormous Growth of Imports to Use in Manufacturing.

Latest treasury statistics show that in the eight months of 1900, ending with August, imports of raw materials for use in manufacturing amounted in round numbers to \$200,000,000, against a little more than \$100,000,000 in the corresponding months of 1896, and the exports of manufactured goods were \$204,000,000, against \$163,000,000 in the corresponding months of 1896.

Raw materials for use in manufacturing formed in the eight months of 1896 only 23 1/2 per cent of the total imports, while in the corresponding eight months of 1900 they formed 35 1/2 per cent. Manufactures formed in the eight months of 1896 23.7 per cent of the total exports, and in eight months of 1900 formed 33.8 per cent.

Every Bryan vote is a vote to go back to the worse conditions of four years ago, with the evils that free trade and the threat of free silver inflicted upon every interest. A vote for Bryan is indeed a vote for hard times.

### WHAT WOULD HAPPEN.

The \$7,000 business failures, with liabilities amounting to \$920,000,000, that occurred during the last Democratic administration, will not be a circumstance to what will happen to the country should there be a Bryan panic, if his 16 to 1 attack upon the country's credit and industries wins at the polls. The point is well taken that the greater the prosperity of the country today, the greater would be its crash in case of collapse. Postmaster General Smith puts it this way:

"We should be plunged to the same depths from a higher level. You fall from the second story and you are in danger of a broken neck. You fall from the top of a sky-scraper and are sure if it."

### THE GERMAN VOTE.

LEADING GERMAN PAPERS COME OUT FOR MCKINLEY.

New York Staats Zeitung Leads the Way. It Is the Most Influential German Paper in the Country—What It Has to Say.

The German voters, after careful consideration have concluded that they can not support Bryan. They realize the magnitude of the silver peril and will vote for McKinley, as they did in 1896. As a result, the German newspapers are falling into line. The most notable accession is that of Oswald Ottendorfer to the McKinley column, and his newspaper, the New York Staats Zeitung, the most widely circulated German paper in America.

This strong and independent paper was inclined to favor Bryan, and is still strongly opposed to the Republican policy with respect to the Philippines, but it finds that this error, as it believes the policy to be, is far less menacing or immediate than that contained in the Democratic platform's plank upon the currency question. Therefore, the paper announces its support of the Republican candidate. That the Staats Zeitung's going over to McKinley hurts the Bryanites was clearly shown by Altgeld, who was in New York city at the time, insinuating to the reporters that Ottendorfer was corruptly persuaded to the step, about the most impossible charge that could be made.

The great New York German newspaper is having an increasing company of associates among the German-American papers in its support of McKinley. In Illinois, of 32 German newspapers in the state, 19 have declared for McKinley and Yates, 12 are for Bryan and Alschuler, while one is a "sound money" organ. This is a gain of four German papers over the campaign of 1896. Of these, the Rockford Germania, which supported Bryan four years ago, now says: "The country refused to follow Bryan's advice and has been prosperous. The Germans of this section know there is nothing to be gained by a change in the administration."

The only German daily paper in Kansas, the Leavenworth Tribune, which has heretofore supported the Democratic party, now bolts Bryan and says:

"So far as imperialism is concerned there is absolutely nothing in it, for the simple reason that there is no party in the United States that advocates a larger standing army than is absolutely necessary for the maintenance of peace and order."

### SENATOR HOAR IS RIGHT.

Every Citizen Must Vote and Vote Right This Fall.

"It is thoroughly unmanly and un-American to take to the woods," is Senator Hoar's sensible way of saying that any American citizen, to do his duty in this campaign, must vote and vote right—not shoot in the air. He hits Bryanism squarely between the eyes in this single sentence:

"I say to the lover of liberty, I say to the anti-imperialist, I say to the man who thinks the Republican party has made a great and grievous mistake, you can not look for the correction of that mistake to a candidate or to a party who, whatever they may think of the principles applied to the Philippine islands, mean to apply those principles in their worst form to citizens of the United States."

With reference to the 50-cent dollar the New York Trade Journal says: "The capitalist, the manufacturer, the laborer and the farmer all recognize the fact that forcing an inferior coin into circulation will bring about the complete ruin of all trade, manufactures and agricultural pursuits, and that the disaster of Bryan's election would be beyond measure."

Connecticut town elections just held went Republican nearly three to one. Connecticut is one of the states that the Democratic rainbow chasers have been claiming as doubtful. Wonder how they like this report?

### BUMMER

Breaks the Record a Quarter Second at Kinloch Park.

St. Louis, Mo., Oct. 17.—Kinloch Park. The day was made memorable by the lowering of the world's six furlong circular track record a quarter of a second by J. Holt's four year old chestnut horse Bummer, in the fourth race on the card, in which Gold Or, Miss Mae Day, Maggie Davis and Bummer were opponents.

Gold Or and Miss Mae Day went to the post equal first choices at 8 to 5, and both were heavily favored. Bummer was made second choice at 2 1/2 to 1. He too received liberal support. On the far turn Bummer assumed command and was never headed, winning in a head drive from Maggie Davis by half a length in 1:12 flat, the new world's record. Gold Or was a good third, but Miss Mae Day was never prominent.

### TEST CASE

Will be Made in the Dowlette Turmoil at Mansfield.

By Associated Press.

Mansfield, O., Oct. 17.—A test case will be made of the Dowlette trouble here. Dowlette Deacon Homer Kessler, of Chicago, was arraigned here this evening by the police, whom they intended to send out of town. Attorney Douglas secured a writ of habeas corpus and Kessler was taken by Deputy Sheriff Bell from the police and locked up in the county jail. The crowd followed the deputy and prisoner, and some stones were thrown, but no one was seriously injured. The hearing in the case will be Thursday morning.

### GOOD ACTIVITY

In Stocks and Prices Continue Strong—Large Sales.

By Associated Press.

New York Oct. 17.—Some continued effort was made in professional quarters to advance the prices of stocks today, but the bull forces were considerably depleted and it is evident that the manipulation for an advance in some quarters was taken advantage of to realize in others. The closing showed a reactionary tendency throughout, and was heavy, with many stocks at the lowest of the day with net losses as a rule. There were falling off in activity of bonds and the market increased in irregularities.

The total number of shares traded in reached 441,031. Money on call was quoted at three per cent.

### PITTSBURG PLAYED

In Fine Form and Beat Brooklyn Hands Down.

By Associated Press.

Pittsburg, Pa., Oct. 17.—Pittsburg played in old time form, and did not leave Brooklyn a leg to stand on. Philippi did excellent work and had gilt edged support, the only error or misplay being Williams' low throw to first in the ninth inning. Only one Brooklynite reached third base, and he was killed at the home plate by the brilliant play of O'Brien on Dahlen's bunt. In no inning did Brooklyn make more than one hit, and their errors were responsible for two runs. One feature was Tommy Leach's good work. He reached first every time he came to bat, made three hits, scored four times and batted in another run. Attendance 1800.
